EXPERIENCE

The Research School, Noida – *Tech Lead*

APRIL 2023 – PRESENT

An all in one Educational platform for research scholars that is powered by top Research Professors and AI.

- Designed a robust and scalable platform using Next.js, Django, and PostgreSQL creating a seamless user experience.
- Successfully hosted the platform on Amazon Web Services (AWS) to ensure high availability, security, and performance.
- Integrated Stripe payment gateway, enabling secure and efficient online transactions for users.
- Implemented a custom OpenAI bot to enhance user engagement and automate responses, improving customer service and user experience.

Processing Foundation, New York – *Google Summer of Code Contributor 2023*

MAY 2023 – SEPTEMBER 2023

Worked on the p5.js web editor open source project, enabling it to work across all the mobile devices.

- Added offline capabilities using service workers.
- Designed and developed custom UI for mobile devices for native application experience.
- Refactored old React express server code. And added service workers.
- Implemented autosave, page resolution, and other functionalities for the editor.

Ayuryuj India, Delhi – *Full Stack Developer Intern*

MAY 2022 – SEPTEMBER 2022

Build a platform capable of online consultation for doctors with patients through custom agora implementation in next js, along with a fully capable online store for medicines.

Google Developer Students Club – *Web Dev Lead*

SEPTEMBER 2021 – SEPTEMBER 2022

Served as the Web development lead of the GDSC community of our college, educating many students by organizing various events and bootcamps.
